

CHINLONE WP 2: TEACHING QUALITY ASSURANCE

PILOT TRAINING
University of Yangon
July 8 -12 2019

ASSESSING LEARNING OUTCOMES: FUNCTIONS, TOOLS, AND PROCEDURES (preliminary program)

The course is articulated in a series of lectures and workshops. It aims at

- *Distinguishing measuring methods from assessment methods;*
- *Exploring the three functions of assessment: diagnostic, formative, and summative function;*
- *Analyzing the different type of tests (unstructured, semi-structured, and structured), with their related methodological planning indications;*
- *Formulating valid and reliable tests;*
- *Introducing analysis techniques for objective tests' items*
- *Introducing and experiencing techniques and strategies of formative assessment, error management, and effective feedback;*
- *Examining skills assessment through authentic assessment.*
