

Student Conference on Internationalisation University of Kelaniya

24th August from 10.00 – 12.30 hours online

Universities around the world are moving comprehensively towards internationalisation, and University of Kelaniya is no exception. Internationalisation is the process of developing, implementing and integrating an international, intercultural and global dimension into the purpose, functions and delivery of higher education. Obtaining the expertise of international staff, staff and student mobility, research collaborations and capacity building are identified as major actions for internationalisation. These actions will lead to improving the quality, graduate employability, ranking and visibility on an international platform.

The Centre for International Affairs is organising the “Student Conference on Internationalisation” to reflect upon a journey of one decade of Erasmus partnerships other international collaboration, and to share the experience of Erasmus Alumni and opportunities available for students to gain international exposure.
