Six possible areas of collaboration

1. Sharing international strategies and agreeing common approaches to explaining the system of higher education in Myanmar.
2. Sharing best practice in developing websites, prospectuses and other documents used to promote our universities internationally.
3. Joint approaches to welcoming and supporting incoming international exchange students: preparing a shared “Study in Myanmar” guide.
4. Sharing the experience of international visits: this might include consideration of a joint delegation to international events and conferences.
5. Joint training activities on all aspects of international cooperation.
6. Setting up a professional group of international cooperation officers.
