

TOOLKIT WP3 ONLINE TRAINING third module Agenda

Module n.3

Management challenges: approaches and best practices.

28 April and 5 May 2021

After getting familiar with how the different Calls for proposals may meet your needs and the main aspects which may lead you to a successful application writing, it is time to deal with project Management and related issues!

The aim of the third and last module of TOOLKIT WP3 training is to give an overview of the main aspects of the Project Management with a special focus on challenges and risks which may arise during the project's lifetime. Participants will be trained on those aspects and will have free space to illustrate their direct experience with the challenges they faced/are facing in the management of international projects stimulating the discussion on the possible solutions. Special attention will also be given to another transversal issue: the sustainability of the project's results.

Main topics

- ✓ Major aspects of project management
- ✓ Main challenges to be faced
- ✓ Beneficiaries' experiences with project management challenges and solutions found
- ✓ UNIBO experiences with project management challenges and solutions found
- ✓ Best practices
