

## TOOLKIT WP4 Online Training – International Mobility Management

My home university/institution is:

22 risposte

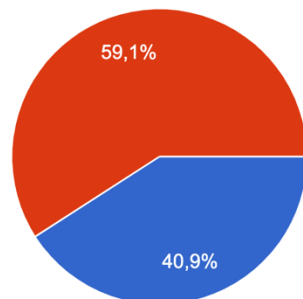

▲ 1/2 ▼

- All participants of the project consortium have responded to the questionnaire

### Infrastructure and Organization

I was satisfied with the quality of communication and interaction between partners before the training

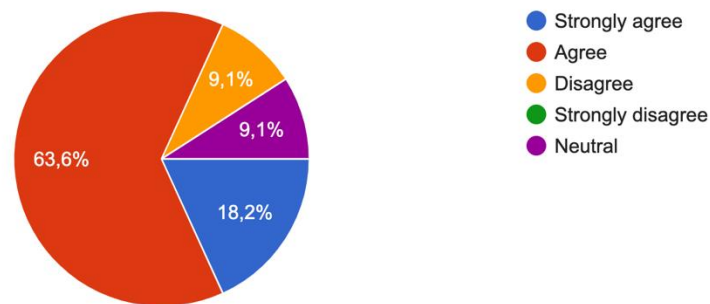

22 risposte

- All participants were satisfied with the quality of communication and interaction between partners before the training

I did not have a difficulty with the Internet connection

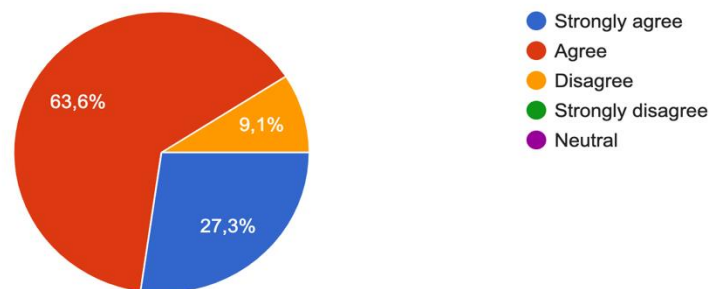

22 risposte

- Most of the participants did not encounter problems with the Internet connection. However, 9,1% of people disagree with this statement and had internet connection issues. Finally, 9,1% of participants were neutral with respect to difficulties with the Internet connection.

There was not a problem for me to participate in this Online training

22 risposte

- Nearly all the participants had not problems to participate in this online training. Only 9,1% of people disagree with this statement.

### Additional comments on Infrastructure and Organization

It is just OK.

Lack of some materials supported.

I was very much satisfied.

non

Lacking of International courses and accommodation

It was a bit difficult for me to stay up to 5 PM, Lao time, as I had to pick up my children from schools

Just good!

The infrastructure and organization were fine.

No problems with infrastructure.

Very informative presentation. The timing was very good. Internet connectivity was weak.

There is nothing negative to share. It was very well organised

I no have English skill enough for listening

This program is very useful in the development of human resources and educational institutions

It is perfect and well organized.

Sometimes, Internet connection is poor and face to face I training is more attractive.

Good enough

This online training makes possible for virtual meeting during the difficult situation of COVID 19 pandemic.

The organization and infrastructure was satisfied.

The training was well organized. We were given adequate time to prepare and rearrange our schedule to make time for the training. One negative point is that when there are several sessions lined up after the other, it becomes tiring (though small breaks were given) and difficult to concentrate.

Online seminars are another good option in the current situation but still notice some parts still have internet issues.

Well organized event

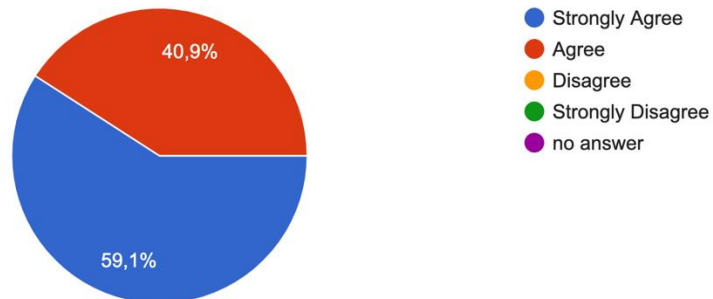

I could not feel that we were working online

- Many positive feedbacks about the organization of the training. There were some complaints about instability of Internet connection and the understanding of the English language.

## Content: Training on Effective Mobility Flows Management

The objectives of the training were clearly defined

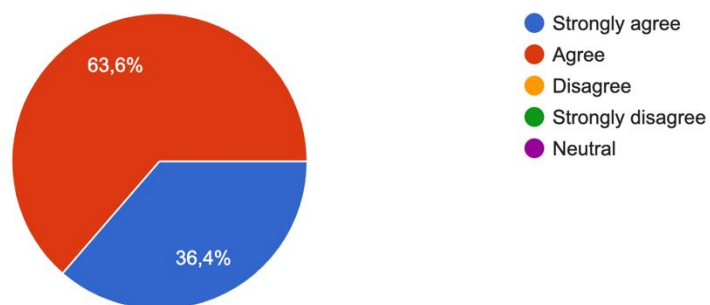

22 risposte

- All the participants agreed that the objectives of the training were clearly defined

The training objectives were met

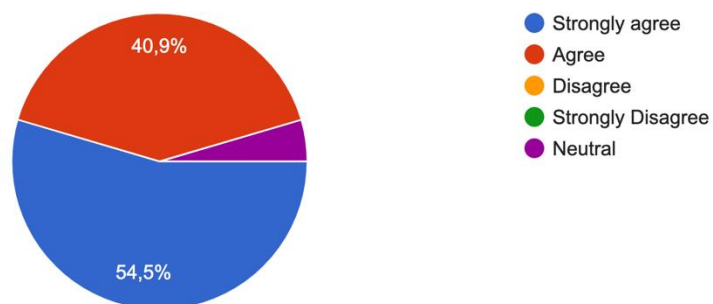

22 risposte

- Everyone agreed that the training objectives were fully met

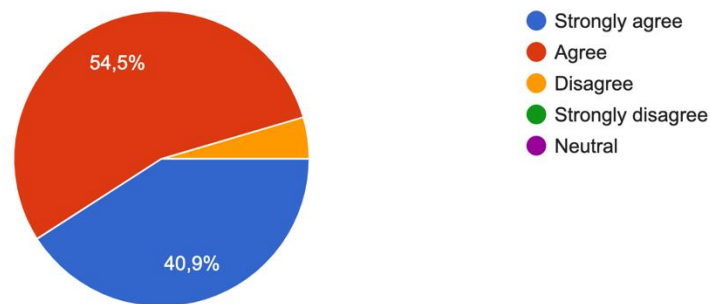

Participation and interaction were encouraged

22 risposte

- Nearly all participants thought that participation and interaction were encouraged

The content was organised and easy to follow  
22 risposte

- Almost everyone thought that the content was organised and easy to follow. However, a very small percentage of participants thought the opposite.

### Additional comments on Infrastructure and Organization

Presentations were very good and informative.

Wonderful lesson

Very good

It very good

The presenters were well prepared

Positive: well prepared, easy to follow and covered most of the areas of my responsibilities

Very informative

I think the content was detailed.

Better to design the programs for more active participation.

The content was quite relevant to university governance and strategies which are good.

Nothing negative to mention. It was very well organised and the presentations were very clear and informative. I could learn a lot.

time too long

Make work management more efficient

The content of the training is constructive and very helpful.

Good presentations

Need to more connection each other

Contents are very relevant for institution performing the internationalization at the university.

All the presentations were very useful and clear.

The content discussed was relevant. Each session focused on an important aspect. The question answer sessions were very helpful to clear doubts and share knowledge.

Objectives are clear and achievable

The content was very good and informative

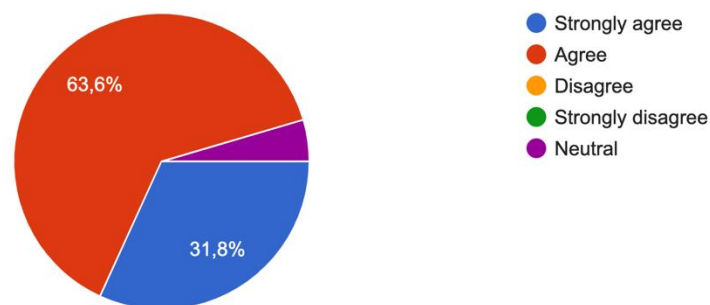

I was more interested in the management aspects explained

- Nearly all the comments show positive feedbacks about the content of the training. Just a few negative comments on time management and a request for more active participation

## Results

The topics covered were relevant to me

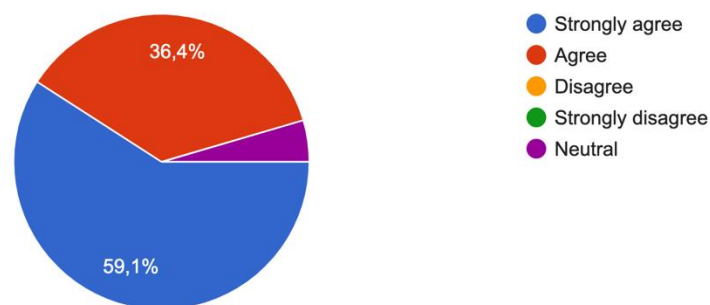

22 risposte

- Nearly all participants found the topics covered in the training relevant for themselves.

I learned many new things from the training

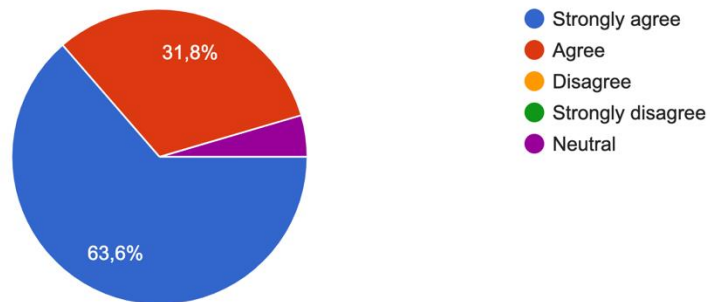

22 risposte

- Almost everyone learned many new notions from the training

I was satisfied with the training

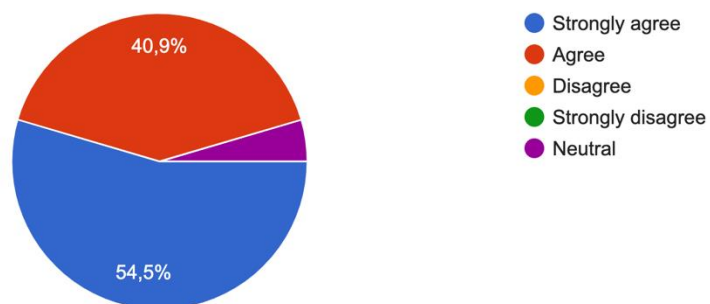

22 risposte

- Everyone was overall satisfied with the training.

This training will be useful for my work

22 risposte

- Almost all participants found the training to be useful for their work.

### Additional comments/questions

Face to face seminars would be more effective

I can use some of the points of the discussion topics to adapt in my tasks

I understand a little content

It was a great opportunity to learn new concepts conducting planned activities

More than enough

Next time we want to have face to face training

None

Nothing special

Of course, the training is useful to me because I am an IR staff

Presenters, presentations and content are good

Some of my University participants English proficiency level might be quite limited which might contribute to their less understanding

The skills of the Zoom operation was exceptionally good to make the event live

The training taught us new things that would be useful in the future, to be more efficient and effective and to better organize IRO and its programs. We are motivated to take part in more exchange and mobility programs in the future.

There should be more trainings in the near future.

The training gives an insight knowledge on mobility.

Time limited.

No question.

Send documents of file PDF to me before

**Did this TOOLKIT training contribute to your University's development? If so, how? What lessons did you learn?**

Yes, as mobile students for IR department is very beginning, it is very good opportunity for our University.

Yes, management and infrastructure model of student support.

Yes. I believe this kind of training will contribute my university's development through learning how UU is doing in their international relation with other universities, how they choose their students, how they develop their curriculum and syllabus, and so on.

Strongly agree.

Credit transfer system/process.

Yes, mobility management and strategy.

As university is in the process of internationalization, this training would be beneficial to the development of guidelines and policies which can be used to manage students mobility in the long-term future.

The training was important for our university's development. This is because internationalization is one of the university's focuses.

To design a hand book of international relations of YUEco.

The training encourages IRO to be strategic to facilitate more internationalisation. I learned using strategies to improve internationalisation practices.

It was very helpful to learn how mobility flows were managed, what aspects we have to focus on.

yes but how to.

Learn the steps and processes in dealing with foreign countries.

This TOOLKIT training contributed to the development of our University by sharing the experience, knowledge and concept on international mobility.

This training can contribute to my University development because we can get knowledge, ideas and experience from other developed universities and partner universities.

How Important Internationalization for globally open university.

Yes. it does. I learnt many new things, especially for the selection process for student exchange.

yes. I leaned much about new concept of Training on Effective Mobility Flows Management. It was helping my university understand more about university internationalization and how to implement through the process.

Yes, it did contribute. We understood how we can improve our system. For example, the introduction of a buddy programme can be very helpful for incoming students. Though we don't have an organization structure as developed as at Uppsala, we can do more to be efficient and effective.

Yes. Creating handbooks will make it easier for inbound and outbound students.

Yes, it helped in learning from UU about how to manage mobility flows effectively.

Yes, It will help to enhance student numbers in mobility programmes while minimizing management issues in future.
